FEDERAL EMERGENCY MANAGEMENT AGENCY
DR-4394-SC PUBLIC NOTICE

FEMA respectfully requests you to post copies of the attached public notice in publicly-accessible locations within your community (for example at the city hall, fire stations, libraries, grocery stores, etc.).

Additional copies or an electronic copy of the public notice for posting on community websites may be obtained from FEMA. Please contact Bernadette Chiasson, FEMA DR-4394-SC Deputy Environmental Planning and Historic Preservation Advisor, at Bernadette.chiasson@fema.dhs.gov or (202) 805-6734.
PUBLIC NOTICE

The Federal Emergency Management Agency (FEMA) hereby gives notice to the public of its intent to reimburse eligible applicants for eligible costs to repair or replace facilities damaged by Hurricane Florence occurring September 8, 2018, and continuing. This notice applies to Public Assistance (PA), Individual Assistance (IA), and Hazard Mitigation Grant (HMG) programs implemented under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207.

Under the disaster declaration FEMA DR-4394-SC signed by the President on September 16, 2018, and September 21, 2018, as amended, the following counties have been designated adversely affected by the disaster and eligible for PA Category B, including Direct Federal Assistance: Berkeley, Charleston, Dillon, Dorchester, Georgetown, Horry, Marion, Marlboro, Orangeburg, and Williamsburg Counties, and IA: Dillon, Horry, Marion, and Marlboro Counties. Under the emergency declaration FEMA EM-3400-SC signed by the President on September 10, 2018, funding for emergency protective measures (Category B), limited to direct federal assistance under the PA program, is available for all counties statewide and the Catawba Indian Nation. The Hazard Mitigation Grant Program (HMG) will be available statewide. Additional designations may be made at a later date if requested by the state and warranted by the results of further damage assessments.

This public notice concerns activities that may affect historic properties, activities that are located in or affect wetland areas or the 100-year floodplain, and critical actions within the 500-year floodplain. Such activities may adversely affect the historic property and floodplain or wetland, or may result in continuing vulnerability to flood damage.

Presidential Executive Orders 11988 and 11990 require that all federal actions in or affecting the floodplain or wetlands be reviewed for opportunities to relocate and evaluated for social, economic, historic, environmental, legal, and safety considerations. Where there is no opportunity to relocate, FEMA is required to undertake a detailed review to determine what measures may be taken to minimize future damages. The public is invited to participate in the process of identifying alternatives and analyzing their impacts.

FEMA has determined that for certain types of facilities there are normally no alternatives to restoration in the floodplain or wetland. These are facilities that meet all of the following criteria: 1) FEMA’s estimate of the cost of repairs is less than 50% of the cost to replace the entire facility and is less than $100,000; 2) the facility is not located in a floodway; 3) the facility has not sustained major structural damage in a previous Presidential declared flooding disaster or emergency; and 4) the facility is not critical (e.g., the facility is not a hospital, generating plant, emergency operations center, or a facility that contains dangerous materials). FEMA intends to provide assistance for the restoration of these facilities to their pre-disaster condition, except that certain measures to mitigate the effect of future flooding or other hazards may be included in the work. For example, a bridge or culvert restoration may include a larger waterway opening to decrease the risk of future washouts.

For routine activities, this will be the only public notice provided. Other activities and those involving facilities that do not meet the four criteria are required to undergo more detailed review, including study of alternate locations. Subsequent public notices regarding such projects will be published if necessary, as more specific information becomes available.
In many cases, an applicant may have started facility restoration before federal involvement. Even if the facility must undergo detailed review and analysis of alternate locations, FEMA will fund eligible restoration at the original location if the facility is functionally dependent on its floodplain location (e.g., bridges and flood control facilities), or the project facilitates an open space use, or the facility is an integral part of a larger network that is impractical or uneconomical to relocate, such as a road. In such cases, FEMA must also examine the possible effects of not restoring the facility, minimizing floodplain or wetland impacts, and determining both that an overriding public need for the facility clearly outweighs the Executive Order requirements to avoid the floodplain or wetland, and that the site is the only practicable alternative. The State of South Carolina and local officials will confirm to FEMA that proposed actions comply with all applicable state and local floodplain management and wetland protection requirements.

FEMA intends to provide IA program funding for disaster-related emergency housing. These actions may adversely affect a floodplain or wetland, or may result in continuing vulnerability to floods. These actions may include repair, restoration, or construction of housing or private bridges, purchase and placement of travel trailers or manufactured housing units, or repair of structures as minimum protective measures. This will be the only public notice concerning these actions.

FEMA also intends to provide HMGP funding to the State of South Carolina to mitigate future disaster damages. These projects may include construction of new facilities, modification of existing, undamaged facilities, relocation of facilities out of floodplains, demolition of structures, or other types of projects to mitigate future disaster damages. In the course of developing project proposals, subsequent public notices will be published if necessary as more specific information becomes available.

The National Historic Preservation Act requires federal agencies to take into account the effect of their undertakings on historic properties. Those actions or activities affecting buildings, structures, districts or objects 50 years or older or that affect archeological sites or undisturbed ground will require further review to determine if the property is eligible for listing in the National Register of Historic Places (Register). If the property is determined to be eligible for the Register and FEMA’s undertaking will adversely affect it, FEMA will provide additional public notices. For historic properties not adversely affected by FEMA’s undertaking, this will be the only public notice.

The Rehabilitation Act of 1973 protects the civil rights of persons with disabilities. It prohibits discrimination on the basis of disability by the federal government, federal contractors, and by recipients of federal financial assistance. Any recipient or sub-recipient of federal funds is required to make their programs accessible to individuals with disabilities. Its protections apply to all programs and businesses that receive any federal funds. This applies to all elements of physical/architectural, programmatic and communication accessibility in all services and activities conducted by or funded by FEMA. FEMA intends to comply with the Rehabilitation Act in all federally conducted and assisted programs in alignment with the principals of whole community inclusion and universal accessibility.

As noted, this may be the only public notice regarding the above-described actions under the PA, IA, and HMGP programs. Interested persons may obtain information about these actions or a specific project by writing to the U.S. Department of Homeland Security, Federal Emergency Management Agency – Region IV - EHP, 3003 Chamblee Tucker Rd – Office #255, Atlanta, GA 30341-4112 or by email at FEMA-R4EHP@fema.dhs.gov. Please include in the subject line of the email “DR-4394-SC EHAD”. Comments should be sent in writing at the above address within 15 days of the date of this notice.
PUBLIC NOTICE

The Federal Emergency Management Agency (FEMA) hereby gives notice to the public of its intent to reimburse eligible applicants for eligible costs to repair or replace facilities damaged by Hurricane Florence occurring September 8, 2018, and continuing. This notice applies to Public Assistance (PA), Individual Assistance (IA), and Hazard Mitigation Grant (HMGP) programs implemented under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207.

Under the disaster declaration FEMA DR-4394-SC signed by the President on September 16, 2018, and September 21, 2018, as amended, the following counties have been designated adversely affected by the disaster and eligible for PA Category B, including Direct Federal Assistance: Berkeley, Charleston, Dillon, Dorchester, Georgetown, Horry, Marion, Marlboro, Orangeburg, and Williamsburg Counties, and IA: Dillon, Horry, Marion, and Marlboro Counties. Under the emergency declaration FEMA EM-3400-SC signed by the President on September 10, 2018, funding for emergency protective measures (Category B), limited to direct federal assistance under the PA program, is available for all counties statewide and the Catawba Indian Nation. The Hazard Mitigation Grant Program (HMGP) will be available statewide. Additional designations may be made at a later date if requested by the state and warranted by the results of further damage assessments.

This public notice concerns activities that may affect historic properties, activities that are located in or affect wetland areas or the 100-year floodplain, and critical actions within the 500-year floodplain. Such activities may adversely affect the historic property and floodplain or wetland, or may result in continuing vulnerability to flood damage.

Presidential Executive Orders 11988 and 11990 require that all federal
actions in or affecting the floodplain or wetlands be reviewed for opportunities to relocate and evaluated for social, economic, historic, environmental, legal, and safety considerations. Where there is no opportunity to relocate, FEMA is required to undertake a detailed review to determine what measures may be taken to minimize future damages. The public is invited to participate in the process of identifying alternatives and analyzing their impacts.

FEMA has determined that for certain types of facilities there are normally no alternatives to restoration in the floodplain or wetland. These are facilities that meet all of the following criteria: 1) FEMA’s estimate of the cost of repairs is less than 50% of the cost to replace the entire facility and is less than $100,000; 2) the facility is not located in a floodway; 3) the facility has not sustained major structural damage in a previous Presidential declared flooding disaster or emergency; and 4) the facility is not critical (e.g., the facility is not a hospital, generating plant, emergency operations center, or a facility that contains dangerous materials). FEMA intends to provide assistance for the restoration of these facilities to their pre-disaster condition, except that certain measures to mitigate the effect of future flooding or other hazards may be included in the work. For example, a bridge or culvert restoration may include a larger waterway opening to decrease the risk of future washouts.

For routine activities, this will be the only public notice provided. Other activities and those involving facilities that do not meet the four criteria are required to undergo more detailed review, including study of alternate locations. Subsequent public notices regarding such projects will be published if necessary, as more specific information becomes available.
In many cases, an applicant may have started facility restoration before federal involvement. Even if the facility must undergo detailed review and analysis of alternate locations, FEMA will fund eligible restoration at the original location if the facility is functionally dependent on its floodplain location (e.g., bridges and flood control facilities), or the project facilitates an open space use, or the facility is an integral part of a larger network that is impractical or uneconomical to relocate, such as a road. In such cases, FEMA must also examine the possible effects of not restoring the facility, minimizing floodplain or wetland impacts, and determining both that an overriding public need for the facility clearly outweighs the Executive Order requirements to avoid the floodplain or wetland, and that the site is the only practicable alternative. The State of South Carolina and local officials will confirm to FEMA that proposed actions comply with all applicable state and local floodplain management and wetland protection requirements.

FEMA intends to provide IA program funding for disaster-related emergency housing. These actions may adversely affect a floodplain or wetland, or may result in continuing vulnerability to floods. These actions may include repair, restoration, or construction of housing or private bridges, purchase and placement of travel trailers or manufactured housing units, or repair of structures as minimum protective measures. This will be the only public notice concerning these actions.

FEMA also intends to provide HMGP funding to the State of South Carolina to mitigate future disaster damages. These projects may include construction of new facilities, modification of existing, undamaged facilities, relocation of facilities out of floodplains, demolition of structures, or other types of projects to mitigate future disaster damages. In the course of developing project proposals, subsequent public notices will be published if necessary as more specific information becomes available.
The National Historic Preservation Act requires federal agencies to take into account the effect of their undertakings on historic properties. Those actions or activities affecting buildings, structures, districts or objects 50 years or older or that affect archeological sites or undisturbed ground will require further review to determine if the property is eligible for listing in the National Register of Historic Places (Register). If the property is determined to be eligible for the Register and FEMA’s undertaking will adversely affect it, FEMA will provide additional public notices. For historic properties not adversely affected by FEMA’s undertaking, this will be the only public notice.

The Rehabilitation Act of 1973 protects the civil rights of persons with disabilities. It prohibits discrimination on the basis of disability by the federal government, federal contractors, and by recipients of federal financial assistance. Any recipient or sub-recipient of federal funds is required to make their programs accessible to individuals with disabilities. Its protections apply to all programs and businesses that receive any federal funds.
